

OHIO SWEEPED BY FLOOD

January Thaw and Heavy Rains Cause Widespread Disaster and Several Deaths.

Newark is One of the Most Fortunate Cities in the State.

OVER TWO HUNDRED FAMILIES ARE RESCUED AT FINDLAY.

Many Bridges Washed Out--Electric Cars Stopped and Railway Traffic Interrupted--Heavy Flood in Indiana and Pennsylvania--Ohio is Booming--Cleveland Viaduct Damaged.

Cincinnati, Jan. 22.—Twenty miles above the bridge will surely destroy it and wreck the steamers.

The Superior viaduct has the largest draw bridge in the world. It is the only direct connection between the east and west sides of the city.

TRAFFIC STOPPED.

Dayton, O., Jan. 22.—High water in the Miami river last night overflowed the trestle of the Cincinnati, Dayton and Toledo, traction road between Franklin and Miamisburg, just above Franklin dam, preventing the operation of the cars, which are being operated only as far south as Miamisburg today. All traffic between Franklin, Miamisburg and Middletown is stopped.

DAMAGE AT FINDLAY.

Findlay, O., Jan. 22.—The flood is still raging in Findlay. The destruction is immense. Bridges in both north and south Findlay are closed and it is feared that they will be carried away before night. The Lake Erie and Fostoria railway company was forced to put cars of crushed stone across their bridge to keep it from being carried away. Over 200 families have been rescued. Currents of water are running down the main streets flooding business houses and residences. The machinery in the electric plant and power house is a total wreck.

NO CARS RUNNING.

Canton, O., Jan. 22.—Not an electric car is running in Canton today. The entire street railway system of Canton, Massillon, the interurban lines Canton to Akron, from Canton to Alliance and from Canton to New Philadelphia are knocked out by high water.

WARSAW UNDER WATER.

Coshocton, Jan. 22.—The ice gorge in the Walhonding river at Walhonding yesterday swept away the steel railroad bridge and the village of Warsaw is half under water. Stock is being driven to the hills.

NEAR DANGER LINE.

Columbus, O., Jan. 22.—An almost continuous fall of rain for 36 hours, carrying off the snow, has caused freshets in practically all Ohio streams.

FLOOD AT CLEVELAND.

Cleveland, Jan. 22.—The Cuyahoga river today is a raging torrent, filled with broken ice from 7 to 10 feet above its banks and flowing 12 miles an hour. Three enormous Steel Trust steamers broke from their moorings above the Superior street viaduct and jarred the abutments of the viaduct out of plumb. These three steamers, the Moors, Eads and Reis, now lie huddled and helpless against the viaduct draw which has been closed to traffic. The sudden breaking of one of the ice gorges

WATER RECEDING

Fear of Local Flood is Now Over--The Baltimore & Ohio Could Not Run Trains Over the Lake Erie Division Thursday Night--High Water.

It looks now like what seemed was going to be the worst flood in this section for a number of years, has been averted and that the worst is over. The waters of the North and South Forks of the Licking river at the Racoon creek got out of their banks on Thursday night, but at this writing the water is slowly receding, and unless there is another heavy fall of rain, will quickly subside. The B. & O. railroad company experienced considerable trouble in moving trains on Thursday night, principally on the Lake Erie division. This was caused by the cut at Fredericktown, being filled with dirt and mud to the depth of six feet or

more, and blocking the Lake Erie division. Considerable track was also washed out on this division between Butler and Ankeny town, and as a consequence all through trains between Newark and Chicago were unable to get through. Trains 47, 14, 8 and 7 were detained via Columbus over the Big Four to Shelby. No trouble to amount to anything has been experienced on the C. O. division and the Shawnee division, and the O. & L. K. is also reported as being in good condition. The local trains between Newark and Sandusky are run as far as possible and then returned. Railroad officials are of the opinion that the worst is over.

IN INDIANA

Flood is Causing Great Damage—Two People Drowned in White River on Friday.

Indianapolis, Ind., Jan. 22.—Reports of floods throughout the state are becoming alarming. The ice is going out of the rivers, the water is rising and great damage will be the result. The destruction of all the bridges across the White river and Fall creek, below the Riverside park dam here, is threatened by a great ice gorge. The police and fire departments and hundreds of men are trying to save the bridges. Street car traffic over several of them has been stopped.

FREMONT UNDER WATER.

Fremont, O., Jan. 22.—The flood from the Sandusky river put the town out of business today. Hundreds were rescued from homes in boats. Business is suspended, and the schools are closed. One-fifth of the city is under water. Lake shore electric traffic between Fremont and Toledo is suspended. Many bridges are washed out. People whose homes are flooded are now housed in the public halls.

OHIO CHILD DROWNS.

Green Springs, O., Jan. 22.—The first death reported in Ohio as a result of the floods is that of Lotta Perin, aged 14. She was the daughter of P. T. Perin, and was drowned while trying to cross Flag Run, which was in flood.

BRIDGE WASHED OUT.

Youngstown, O., Jan. 22.—The bridge of the Pennsylvania railroad has been washed away at Mahoning town and the abutments of the new B. & O. railroad bridge near New Castle junction have also been carried away by the water. The Pennsylvania railroad has also suffered serious washouts at Struthers.

SITUATION IN NEWARK.

The immediate danger of a flood in Newark is over. The January thaw and heavy rainfall the past two days caused the streams here to rise rapidly and get out of their banks, but since Friday morning when the rain ceased, the water has been receding. The water in the North and South Forks of the Licking is now falling rapidly.

Friday, January 22, 1904, has been a veritable April day. For the first time in several months the mercury has climbed to 62, thermometers registering that degree at 2 p. m. A heavy wind has been blowing and since 10 o'clock the sun has been shining brightly save for a few minutes just before 1 o'clock, when clouds quickly formed and a perfect deluge of rain fell. The heavy rain and bright sunshine have driven off the snow which has been here for several weeks.

IN PENNSYLVANIA.

Pittsburg, Pa., Jan. 22.—The worst flood in the history of western Pennsylvania since the establishment of the weather bureau at this point is expected here tonight. Never before have the existing conditions and the outlook been so serious as now. Although Forecaster Frank Ridgway will not state to what height he expects the river to rise he admits the situation is grave. Experienced river men and people who for years have watched river and weather conditions, do not hesitate to state that a stage of 35 feet would be reached, which is 1.7 feet higher than the flood of 1834.

Along the Allegheny river, the small streams on both sides have cleared themselves of ice, showing it out on the river ice and they are running bank full.

At East Liverpool the ice which covered the Ohio river from shore to shore, is moving out without damage.

At Stenbenville the gorge broke about 10 o'clock and passed out without damage. The river is rising fast.

At telegrams from Wheeling at midnight says:

"The most serious damage done by the protracted rains and thaw and consequent running out of the small streams was the washing away of a Wheeling and Lake Erie railroad bridge over Short Creek, completely tying up traffic over the road."

BULLET

Crashed Through Woman's Skull, but She Still Lives—Her Assailant is Dead.

Fostoria, O., Jan. 22.—Albert W. Kessler of Tiffin, aged 25, attempted to murder his sweetheart, Mrs. Dora Bernard yesterday afternoon, and then shot himself. The couple had been together since Saturday night, when he came over with his week's wages which he spent for liquor. When his money was exhausted he pawned his overcoat.

The couple and the landlady were sitting together, when he said he was going to the next room to lie down. He soon called the girl. When she entered the room he told her to shut and lock the door. She did this. When he told her to shut her eyes, she did so, thinking he was joking. He shot her between the eyes, the ball passing through the skull below the brain. He then shot himself, dying instantly. Her injuries are serious, but not necessarily fatal.

The woman is married but has not lived with her husband, Veon Bernard, of Toledo, for two years and has applied for a divorce.

LATIN

Teacher Found Dead and Her Death is Very Mysterious.

Bedford, Ind., Jan. 22.—The dead body of Miss Sarah Schaffer, teacher of Latin in the Bedford high school, was found this morning by Wm. Cook and John Hendricks. Cook is a cabman and he found the body when he went to take his cab out of shed. The body was lying under the cab and marks on the ground gave evidence of a struggle for life. The face was lacerated and the entire body was covered with mud and blood. On the shed floor was a pool of blood. When school began and Miss Schaffer did not report an investigation was made and the body identified. The entire affair is shrouded in the deepest mystery. Miss Schaffer's home was in Elkhart, Indiana.

LOSS AT LORAIN.

Lorain, O., Jan. 22.—The loss owing to the flood and ice will reach \$500,000. The big freighters Empeck and Hendrick Holden and 12 other boats have drifted to the mouth of the river, blocking it. The Nickel Plate railway bridge is put out of business and great damage has been done to docks and iron works plants along the river.

WEATHER BULLETIN.

Washington, Jan. 22.—The weather bureau issued the following flood bulletin this morning: "Nothing has occurred since Tuesday night to lessen the gravity of the flood situation in the upper Ohio. Conditions continue extremely threatening in the vicinity of Pittsburg."

"At Cincinnati, heavy ice is running, gorges above and below the city have broken during the night."

"The weather conditions continue favorable to a rapid breaking up of the ice in the rivers and small streams of central and eastern Pennsylvania, New York, West Virginia and Maryland."

"There will be rain tonight in Atlantic coast districts, the upper Ohio valley and the lower lake region, and light rain or snow will continue Saturday along the lakes and in eastern New York."

AFTER ANTI-TOXIN TRUST

Chicago Doctor Thinks Uncle Sam Should Manufacture It.

Chicago, Jan. 22.—"With anti-toxin in the control of a trust which has made the lives of children secondary to material gain, it is time for the federal government to step in and manufacture this necessary medicinal practice," said R. P. Preble, president of the Chicago Medical society at the close of a meeting of the society. Dr. Preble also said he would appoint a committee to make a complete report of the facts, and to start a movement toward the manufacture of anti-toxin by the United States government.

CYCLONE

Wrecked a Town in Alabama Early This Morning.

Birmingham, Ala., Jan. 22.—(Dull etin).—Conductor Capehart, in charge of the limited train northbound on the Queen and Crescent railroad, which reached Moundville, 70 miles southwest of here at 3 o'clock this morning, has wired the officials of the road here that he could not pass Moundville because of wreckage on the track caused by a cyclone, which passed over that place at 2 o'clock.

Capehart backed his train to Akron and sent a message over a round-about circuit, saying that the town of Moundville was destroyed and everybody killed.

Moundville has a population of about 300. It is believed that the report is overdrawn, but it is evident that the loss of life has been heavy.

A special wrecking train of the railroad has just left here for Moundville with ten linemen to repair the wires. Until direct communication is had the full story of the damage done by the storm will not be known.

A later message says the entire north end of the town was wrecked and the population of the place practically wiped out.

THIRTY PEOPLE ARE KILLED.

A section hand who has just arrived from Moundville at Tuscaloosa, Ala., says the country is laid bare for miles by the cyclone today. He saw the bodies of many people lying about Moundville. Telephone reports state that 30 people were killed by the cyclone at Moundville.

Birmingham, Ala., Jan. 22.—Cyclones are reported at several places in Alabama this morning. At North Birmingham, near here, five stores and several residences were blown down and a number of people hurt. The town of Moundville, in Tuscaloosa county, was also wrecked by a storm and a number hurt. No deaths are so far reported. There was fearful wind and rain all over the northern part of the state at 2 o'clock this morning.

Memphis, Tenn., Jan. 22.—Cyclonic conditions have prevailed in Memphis and vicinity, but the wires are down south and the extent of the damage cannot be learned. In the Meacham subdivision, a suburb of Memphis, five houses were blown down, but the occupants escaped.

At Vicksburg, Miss., several small houses were demolished and two horses and a hackman named Lavinsk killed.

Kept Wedding Secret.

New Castle, Pa., Jan. 22.—A surprise has been caused here by the announcement of the secret marriage last summer of Miss Minnie Van Horn, a pretty 17-year-old member of the High school freshman class, and Fred Skidmore, a well-known young man.

Their marriage took place at Jamestown, N. Y., June 6, when the young pair attended a picnic. They were accompanied by the bride's uncle, but they managed to elude him and were married.

Returning home, they kept the marriage a secret until the bridegroom told the wife's parents.

To Stop Fighting.

Boston, Jan. 22.—The carrying out of the plan of the Boston police board the threat to stop all boxing exhibitions and prize fighting in this city, resulted in holding for the grand jury of Joe Choyinski and Kid Carter, who were arrested Tuesday night at the Criterion Athletic club after the former had been knocked out by Carter in the first round. Eight others were arrested on the charge of aiding and abetting a prize fight.

How Was It Spent?

Washington, Jan. 22.—The war department is asked to detail to the house the amount and source of money it has expended in the promotion of flying machine experiments in a resolution introduced by Representative Hitchcock, of Nebraska. The resolution applies to such experiments and construction whether under the direction of Professor S. P. Langley, or otherwise. The resolution was referred to the appropriations committee.

Queen & Crescent Train Stopped By Wreckage in Storm's Path.

Conductor Wired After Backing Train to Another Point That Moundville Was Destroyed and Everybody in the Town Killed--Details Are Yet Lacking.

Birmingham, Ala., Jan. 22.—(Dull etin).—Conductor Capehart, in charge of the limited train northbound on the Queen and Crescent railroad, which reached Moundville, 70 miles southwest of here at 3 o'clock this morning, has wired the officials of the road here that he could not pass Moundville because of wreckage on the track caused by a cyclone, which passed over that place at 2 o'clock.

TRAVELING INCOG.

Is the Korean Prince and the Minister is Carefully Guarding His Whereabouts--Student at Delaware Last Year--More Rumors of Peace in Orient.

Paris, Jan. 22.—It has been learned in official quarters that the International Peace Commission (having its headquarters at Bern), which is an adjunct of The Hague arbitration tribunal, has sent a circular note to the powers asking for the adoption of means to secure a settlement of the Russo-Japanese controversy.

The note has received serious attention from some of the government, including, it is understood, that of Washington, which has taken steps to learn the attitude of the foreign governments toward the proposition.

It is expected that France will not act upon the note, as Foreign Minister Delcasse has already taken what is considered to be more effective means of exerting influence upon Russia.

RUMORS OF PEACE.

Washington, Jan. 22.—According to advices received by Acting Secretary Loomis of the state department from several of our European embassies there has been a marked change in the Eastern situation and the prospects for a peaceful settlement of the differences between Russia and Japan are decidedly bright.

The influence exerted by the powers and the neutral stand taken by the United States have had a wholesome effect on the warlike spirit of Russia and Japan.

The state department's information from St. Petersburg confirms the press reports that the conservative element in Russia is now making itself felt and the czar is anxious to preserve peace.

It is believed here that Russia's answer to Japan's last note will be conciliatory and that it will call forth additional correspondence which will be in the interest of peace.

CRUSHED TO DEATH.

Caldwell, O., Jan. 22.—Wilson Cant, aged 22. Tuesday night openly confessed religion and said he "felt prepared to meet his Maker." The next day he fell under a wagon load of lumber and was killed.

Society Women

The Grand-Niece of
U. S. PRESIDENT JAMES K. POLK,
MRS. IDA ROSER,

Induced to relate Her Experience for Benefit of Other Women.

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

"The value of Lydia E. Pinkham's Vegetable Compound was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count, Yours gratefully,
"MRS. IDA L. ROSER, 326 E. 18th Ave, Denver, Col."

Lydia E. Pinkham's Vegetable Compound

seems to be the universal woman's medicine for the high and low, rich and poor; and why not? The organism of all women is alike, and the society woman is just as susceptible to the ills of womankind as are her less favored sisters, but owing to their inherent distaste for advertised articles will resort to all other methods for a cure first. Yet it is a fact worth recording that Mrs. Pinkham is constantly receiving letters from women of high social position, saying as a last resort and without any faith, they tried Lydia E. Pinkham's Vegetable Compound and were completely cured by it. She actually has thousands of such letters.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to these women. No woman should suffer with such a remedy at hand.

SPECIAL ADVICE TO YOUNG WOMEN FREE.

From a vast experience in treating female ills, extending over 20 years, Mrs. Pinkham has gained a knowledge which is of untold value to every ailing young woman. Her advice is very sure to help. If you need such help, write her. She will be glad to answer you confidentially and free of charge. Address Lynn, Mass.

STORY

Of the Ballots for the Papacy, as Officially Published, Now First Made Public.

Washington, Jan. 22.—The first official account of the manner in which the votes were cast in the conclave which elected Cardinal Sarto to the pontifical throne, has just been issued in a brochure "Diarium Curiae Romanae," which is the diary of the Roman Curia. It was written by the editor of the Analecta Ecclesiastica, Sign. Felix Cadene, and the following is the summary of the seven ballots that were cast:

On the first ballot there were 62 votes cast. Two-thirds, or 42 votes, were necessary to elect. Cardinal Rampolla had 24 votes; Cardinal Gotti, 17; Cardinal Sarto, 5; Cardinal Serafino Vannutelli, 4; Cardinal Oreglia, 3; Cardinal Capeceatre, 2; Cardinal Di Pietro, 2; Cardinals Agliardi, Ferrata, Casetta, Tortanova, Segna and Tripepi, 1 each.

On the second ballot Cardinal Rampolla's vote was increased by 5, making it 29; Cardinal Gotti lost 1, having 16, and Cardinal Sarto doubled his vote making it 10. There were seven scattered votes.

On Sunday morning, August 2, the third ballot was taken. Before the vote was cast, however, Cardinal Puzyna, of Austria, announced that Emperor Franz Joseph was opposed to the election of Cardinal Rampolla. The secretary of state, however, did not lose any votes by this, as on the ballot which followed he still had 29. Cardinal Sarto made a heavy gain and took Gotti's place as second, with 21. Cardinal Gotti had 9, and there were three scattered. In the evening Cardinal Rampolla gained one vote, making the total 30. Cardinal Sarto gained three, making his total 24, and Cardinal Gotti but only 3, with five scattered votes.

The fifth ballot, taken on Monday morning, August 3, presented Cardinal Sarto in the lead for the first time. He had 27 votes, Cardinal Rampolla 24, and Cardinal Gotti 6, with five scattered. The sixth ballot raised Sarto's vote to 35, Rampolla's dropped to 16 and Gotti counted 7, with four scattered.

The seventh ballot elected Cardinal Sarto, with 50 votes, or 8 above the required two-thirds. Cardinal Rampolla had 16 and Cardinal Gotti 2.

It is notable that Pius X received on the ballot which elected him just 10 times as many votes as he received on the first ballot.

MRS. BETCHTEL

Took Stand in Her Own Behalf at the Murder Trial at Allentown, Penn.

Allentown, Pa., Jan. 22.—Mrs. Catharine Bechtel, whose trial on charge of being an accessory after the fact to the murder of her daughter, Mabel, has been in progress here since last week, took the witness stand in her own defense yesterday afternoon. She was on the stand for four and a half hours, and proved a good witness. She told a plain straightforward story in a low plaintive voice, which frequently broke as she related the incidents and conversations that wrung her heart. Briefly stated, Mrs. Bechtel positively denied that her son, Tom, killed Mabel, or that she had guilty knowledge of the crime.

LAST

Remnant of a Great Fortune Passes From the Possession of the Lima Man.

Lima, O., Jan. 22.—By a private settlement out of court after a hearing to chancery lasting three days, the last remnant of the estate of Benjamin C. Faurot, a decade ago, Lima's leading business man, banker and millionaire, passed from his possession. It was the old Faurot homestead, occupying a half square in the resident district, and valued at \$50,000.

Faurot failed in 1893 through Mexican railway deals. At that time he was president of the Lima National bank, owner of the street railway, the second electric system built in the United States, president of the strawboard works, electric light works and owner of the handsome Faurot opera house block, bought in a few years ago by John D. Rockefeller on a mortgage.

Faurot made a legal fight for the homestead, but heavy incumbrances caused the private settlement. The property passing to Theo. H. Conderman, of Philadelphia.

DELUGED CLERK

With Ice Water did This Wealthy Widow When She Was Refused a Room in New York.

New York, Jan. 22.—Mrs. Sarah Teneyck Prince, a widow of wealth and distinguished family, is in the psychopathic ward at Bellevue hospital, to the great relief of the managers of the leading hotels on the Broadway district.

She stopped at a different hotel every day for over a week, created consternation in all by her eccentric conduct and finally barricaded herself at the Hotel Normandie for a day and a night.

Then she went to the Martha Washington hotel—exclusively for women—screamed hysterically when refused a room, and threw a pitcher of ice water over a clerk "to cleanse him from sin."

Sentenced to Die.

Hopkinsville, Ky., Jan. 22.—Frank Meriwether, the fourth of nine negroes charged with murdering, robbing and mutilating an unknown white man near Pembroke, November 14, 1903, was sentenced to hang Thursday George Holland, Dick Carney and Charles Finch have received death sentences and the joint trial of three more of the negroes is now in progress.

NEW HIGH RECORDS MADE IN COTTON

New York, Jan. 22.—New high records were again made in the cotton market.

The advance was not attended by any special activity or excitement; in fact the feature of the market was the apparent absence of public operations on anything like an important scale.

Immediately following the opening inactive months showed rather a declining tendency under liquidation, but prices soon rallied, and during the remainder of the day exhibited an upward tendency with March reaching 14 1/2, May 14 1/4 and July 14 1/4.

The close was within three points of the best and strongest advance of 50 1/2 points. Sales were estimated at 600,000 bales.

THE PROTECTIONIST BATTLE IN ENGLAND.

(Pittsburg Post.)
While Joseph Chamberlain had an enthusiastic and largely attended greeting from the people of London on Tuesday afternoon, the purpose being to ascertain how the city people felt as to protectionist plans of fiscal reform, the Duke of Devonshire and Lord George Hamilton addressed an equally enthusiastic meeting at Liverpool at the same time, taking up the opposite side of the Chamberlain system, and opposing it with all their powers of oratory and argument. Liverpool and London have spoken, it is said, but all are cautious in predicting results, whether Chamberlain will win on the issue he has proposed at the general election, not too far distant, or British free trade policies will continue to hold the fort, as they have held it for well on to fifty years. A political revolution of the most drastic character would follow, but no one can predict with any assurance of victory which side will come out at the head. Chamberlain appears to have on his side the commercial classes, and is honored with unbounded enthusiasm. The other side has the advantage of the conservative tendencies of the British people and their deep-rooted belief in free trade.
It is a battle royal and Great Britain has seen nothing of the kind since tariff reform became the war cry years ago, with Peel and Cobden and their associates in the lead. It raises as important an issue in Great Britain as

would happen in the United States should the dominant party in this country declare for a tariff for revenue only and remand protection to a back seat. The intensity of American interest arises from the fact that should great Britain declare for protection the letting down of the tariff bars would soon become an issue in the United States, for British preferential tariffs would mean a war on the breadstuff and provision interests of the United States, and play hob with protection in the great Northwest.
The appeal made by Mr. Chamberlain to the great plutocrats and merchants of London plainly told them that the commercial and financial supremacy of London, as the money arbiter of the world, was endangered by the present fiscal and free trade policy of England. The greatness of London as the financial center of the world was in danger of departing, as Venice, Holland and the Hanseatic states lost their money prestige when London became the clearing house of the world. That power, he implied, would go to New York. He admitted what is now in plain view, that Great Britain was deteriorating, and could be saved only by applying protection principles and policies to the mother country and the British colonies. The question arises if all nations, as Mr. Chamberlain says, apply protection and it becomes the universal law of mankind, what power is to be the gainer? The United States clearly realizes that it will be the great loser by protection in Great Britain and its dependencies.
Proclamation has been made that there has been a diplomatic meeting between President Roosevelt and Mr. Hanna without decisive results as to whether Hanna shall draw out of the presidential battle and ally himself with the unanimous nomination movement that the President has at heart. Further conferences are promised between the two great Republican leaders. The one that has occurred was only a tea table or luncheon affair, and although promising, was by no means conclusive. There are big questions in reserve. What is to become of Perry Heath, who has just nominated Mr. Hanna for the presidency and the bouncing of Roosevelt? Mr. Hanna is noted for adherence to his friends, and it is not likely that he will consent to the immolation of Heath, which is held to be a Roosevelt necessity.

WARD LOCAL OPTION.
Columbus, O., Jan. 22.—The ward local option bill, prepared by the Anti-Saloon league, and introduced by Representative Brannock, of Clermont county, provides that it shall be unlawful to sell intoxicating liquor as a beverage in any ward of any city or village when a majority of the qualified electors sign a petition to prohibit the selling of intoxicating liquor in that ward and the petition is passed upon by the mayor or common pleas judge, finding that it does contain a majority of the voters of the ward.
The bill outlines what shall be a sufficient form of petition and also defines the term majority of the qualified electors in the ward to mean, the majority of registered voters in wards having registration.
The usual exception with reference to druggists selling liquor is in the law, the same as in the Real law. The bill is entirely separate from the Real law and will not affect it in any way, or the villages or cities that have or will take advantage of its provisions.

Will go to Zanesville Next Monday to
Bowl Against Brunswick Club
Members.

Zanesville, O., Jan. 22.—Mr. T. C. Fowler, of the Brunswick Bowling Club, received a letter from W. J. Tracey, of the Newark Bowling club, informing him that the Newark club would be here next Monday evening to bowl a series with the Brunswick club. The series will be rolled at the Brunswick alleys. Mr. Fowler stated that other out-of-town clubs would be here later.

Thomas Reibl has organized a bowling club called "The Night Owls" and this club will try tenpin conclusions with the Brunswick club on Friday evening. On next Wednesday evening Stemms' Old Leaguers will roll the Brunswick club again.

There are now four regular bowling clubs in the city, the Brunswick, Wholesalers, Retailers and Night Owls. There are also several bowling enthusiasts contemplating forming clubs, so with a couple more a bowling league could be started very nicely. There are many Zanesville bowlers who would like to see such a league and a championship series would increase the number.

FUNERAL

Of Chief Russell at Columbus Held on
Friday Afternoon—Newark Mayor
and Chief Attended.

Columbus, O., Jan. 22.—Messages of condolence still continue to arrive at police headquarters over the death of Chief Russell, and many outside officials were present to attend the funeral obsequies, held on Friday afternoon at the First Congregational church.

The members of the police department, with the escort and others, the mounted squad, etc., met at the city prison about 12:30 today and marched from there to the home of the late chief on Buttes avenue, to act as escort for the funeral cortege to the church.

Mayor A. J. Crilly and Chief of Police James Sheridan of Newark, attended the funeral both having been personal friends of the deceased officer.

SHOT A MAD DOG.

Kirkersville, O., Jan. 22.—A dog supposed to be mad created no little excitement here Thursday. The animal, which was frothing at the mouth attacked two other dogs in town and started up the Buckeye Lake tracks toward Columbus. DRUNKENNESS

Is One of the Charges Against an In-
corrigible Aged 11, Who Was
Taken to Reform School.

Lancaster, O., Jan. 22.—Sheriff Chambers, of Toledo, brought Lindsey Carr, a lad of eleven years of age, to the Boys' Industrial school Wednesday night.

Sheriff Chambers stated that the boy was the son of Mr. and Mrs. Edward Carr, who formerly lived here, but the parents had separated and the mother is now a professional nurse in Toledo. The boy became unmanageable at a tender age, the mother being unable to keep him at school, so he was taken in charge by the Newsboys' home in Toledo, and under the personal care of the president was permitted to sell papers. He finally became so incorrigible that little could be done with him, and not long ago, after a protracted absence from the home of over a day, he returned at 1 o'clock in the morning in a maudlin condition from strong drink. He was then taken before the probate court and committed to the B. I. S.

He is a handsome boy and sharp as a tack, so to speak.

NO INDICTMENT

Found Against Dr. Crawford at Zanes-
ville, Charged With Death of
Alice Coomes.

Zanesville, O., Jan. 22.—After ten days' deliberation, during which time they examined 182 witnesses, covering 27 cases, the grand jury has reported 21 true bills and ignored 16 cases.

In their report it was stated that they had visited the county jail and that they recommended the construction of steel screens for the jail windows, and that better ventilation be afforded the structure.

Interest centered on what would occur in the death of Alice Coomes the Toboso, Licking county girl, by the jury, and it was generally conceded by the people that no indictment would be found against Dr. D. H. Crawford. This proved to be the case, this matter being one of the sixteen that were ignored.

NO DOUBT

SAYS DR. LAGORIO, THAT DOG WAS RABID.

Little Hilleary Girl Reaches Chicago, Where She is Now Receiving Treatment.

The Advocate received the following letter Friday afternoon from Dr. A. Lagorio, director of the Chicago Pasteur institute:

Mr. Hilleary with daughter arrived at the institute Wednesday morning, and at once she was submitted to the Pasteur treatment. From the history given there can be no doubts that the dog was rabid. It was indeed a kind act of yours to have interested yourself in the case and made it possible for the patient to take the treatment. The patient will have to remain in Chicago no less than fifteen days. The father can return home any day. The patient does not board nor room in the institute building, but in a boarding house in the neighborhood fitted up for my patients. She will be well taken care of.

The fee asked does not include the board. I do not know now how much it will amount to. Will find out and let you know. With regards I am, very truly yours.

F. D. Cassanave, in charge of the Pennsylvania's exhibit at the World's fair, has about completed all the plans for the engine testing plant to be erected there. It is the purpose of the Pennsylvania to put up a plant that will be used in testing the speed of engines. There will be machines of every description in competition for the speed honors. Several of the foreign countries are preparing to send engines, and from all indications the exhibit will be one of the most interesting at the exposition. All the preliminary work on the plant has been completed, and it will be in full working order by April 1. The B. & O. is also arranging to remove its extensive exhibit from Chicago to the St. Louis exposition.

AT NOON

The Mother Filed Suit Against Her Son and at Four O'Clock She Was Dead.

Youngstown, O., Jan. 22.—Death followed close on a mother's filing of a suit against her son, charging him with a fraud and asking the Courts to remedy the wrong she alleges he had done her in obtaining her signature to a deed for the little home she owned.

The suit was filed by Mrs. Jennie M. Baird Thursday noon against Rob't. R. Baird. At 4 o'clock, soon after the local papers appeared announcing the suit, she was dead. Nervous prostration caused it.

In the petition she alleged that on January 9 the son got her signature to what he said was a mere perfunctory document—a receipt. The document turned out to be a deed for her home, all that she had left of considerable property which her husband, John R. Baird, left her when he died in 1891. Immediately afterwards, the petition sets forth the son placed a mortgage on the property. She asked in her petition that the deed be set aside and that he be restrained from placing further incumbrance on the property.

Mrs. Baird was 67 years old. She, with her husband, came here from Zanesville, Ohio, where she was born in 1837, and for years he was the leading photographer of the city. Robert Baird, the son, was prominent in society for many years. He has one brother, Mort Baird in Scranton, Pa.

THE COURTS

COOPER CASE ON TRIAL BEFORE JUSTICE AND JURY.

Statute Gives 'Squire Final Jurisdiction—News of the Day in the Court House.

The case of Frank Cooper, of Coneyburg, who is charged with failure to provide for his minor child, Ursel Cooper, has been on trial before 'Squire Atcheley and a jury of twelve men, beginning Thursday morning.

This case is brought under a statute that as amended in 1902 confers on justices of the peace, police judges and mayors final jurisdiction and has all the dignity of a criminal prosecution in the common pleas court. The penalty may include imprisonment in the Ohio penitentiary, which sentence may be pronounced by magistrates whose final jurisdiction only extends, under ordinary circumstances, as for misdemeanors.

The witnesses in the case are subpoenaed, jurors drawn and other processes issued and served just as in a criminal case in the common pleas court, and a constable of one of these lower courts, in the service of subpoenas, or other order of the court, is clothed with the same power as a sheriff.

The costs, including witness fees, are paid out of the county treasury, and no security for costs can be demanded of anyone before he can prosecute a case under this statute.

There is no appeal from the verdict of the jury and the sentence of the court, but a writ of error may be prosecuted in the usual manner.

In the Cooper case, W. D. Fulton and Oil C. Dugherly are attorneys for Mrs. Cooper, while E. G. Smythe appears for the defendant.

Harper vs. Harper.

Elwood C. Harper by his attorney, J. R. Fitzgibbon, has commenced suit in the Probate court for divorce from his wife, Bertha Harper. The plaintiff says that he was married to the defendant in October, 1895, and that two children now living, were born of the marriage. For cause of action plaintiff charges the defendant, with having deserted him on October 17, 1901, leaving his home in company with one Fred Roe, and that ever since she has been wilfully absent from him. He also says that when his wife left him she took with her their two children. Infidelity on the part of the defendant is also charged.

Friend vs. Friend.

In the Probate court Martin Friend, by his attorneys, Smythe & Smythe, has filed a petition asking for a decree of divorce from his wife, Aurelia Friend. The plaintiff says that no children were born to them, and for cause of action he charges the defendant with abandonment.

Heck vs. Heck.

Marguerite Heck by her attorneys, Smythe & Smythe, has commenced suit in the Common Pleas court against her husband, Antoine Heck, for divorce. The parties were married in 1895, and seven children born of said marriage are now living. The plaintiff says that a separation has taken place between her and the defendant by reason of his misconduct. She says that her husband came home on the night of January 20, 1904, very drunk, bringing another man home with him, who was also drunk; that her husband ordered her to prepare supper for them, and that he accused her of being unchaste, and having been out with another man for immoral purposes; that he procured a revolver and threatened to shoot and kill her, and that he became so violent that he was arrested by the police and taken to the station house. She also says that on other occasions he has assaulted and struck her with his fist and falsely accused her of being immoral, and that he is a glassblower earning from \$5 to \$11 per day. She asks for a divorce and alimony and the custody and control of the children.

Common Pleas Court.

In the case of Rachel Connors vs. Henry S. Irwin, administrator of Hamilton Irwin, deceased, the jurors returned a verdict for plaintiff for \$1500 and \$270 interest, for services rendered deceased in the last six years of his life. Hunter, J. D. Jones; Kibler & Kibler.

P. S. Phillips vs. John Woolard, an action on a contract for building an addition to a house. The case was settled by the parties, without trial, a judgment being entered for plaintiff for \$15. Forry; Smythe & Smythe.

Whose Duty is It?

There seems to be some misapprehension between William Davis, the new Republican janitor of the court house, and Lewis Legge, the court bailiff, about cleaning the court room, which at present is the conversion room in the basement of the court house. The janitor claims that former court bailiffs always kept the court room clean, and that it is his duty, whereas the court bailiff says that the room belongs to the janitor. The room is getting very filthy and some one has facetiously remarked that the attention of the board of health should be called to it.

Legge is also a Republican and was appointed by Judge Seward.

ILLINOIS

DELEGATES MUST BE INSTRUCTED FOR HANNA IF ANYONE.

Republican Organ of Chicago Has Disputed the Ranks of the President Says Washington Dispatch.

Chicago, Jan. 22.—A dispatch from Washington, D. C., says: Friends of Senator Hanna would like nothing better than to stir up a row in Illinois Republican politics over the instruction of delegates to the national convention. They want the delegates instructed for Hanna or un instructed. There is a disposition on the part of some Illinois politicians to listen to these overtures. George W. Hinman, of the Chicago Inter Ocean, was a recent visitor to New York and Washington, and it is said that during his last visit here negotiations were begun with New York parties looking to the delivery of Illinois delegates to Hanna, and as a part of the plan it is said Hinman wants to become national committeeman.

The sudden change of attitude toward Roosevelt by the Republican organ in Chicago caused some surprise here, but was explained on the ground that anxiety to be with a winner had resulted in a straddle. However, Senators Hopkins and Cullom and other Illinois leaders in the house united in saying that the Illinois delegates at large to the next national convention will be instructed by the state convention for President Roosevelt.

"To inject a national fight on top of a state fight in Illinois Republican politics might be disastrous," said a member of congress.

"The people of the state are for Roosevelt, and the man who goes contrary to their wishes will be in troubled waters at the outset."

The Inter Ocean has hitherto been regarded as a black Republican organ, but it is backed by the same interests which support the New York Sun. These interests are represented by Wall Street men who are afraid of Roosevelt and who fear the effect on money which another term from him will bring. The Sun has been opposed to him for many months, and the word has gone out to the Inter Ocean to get into line for any one to beat Roosevelt in his attempt to secure the nomination.

BIG DAMAGES

Mrs. Bidwell Asks from Her Father-in-Law—Alleges He Accused Her of Killing Her Child.

London, O., Jan. 22.—Several sensational charges are contained in a suit filed by Mrs. Alta Bidwell against her father-in-law, Monroe Bidwell, wealthy land owner of Jefferson township, from whom she asks damages to the amount of \$25,000.

About a year ago Eber Bidwell, husband to the plaintiff, deserted her after taking her to a church at Gillivan. Mrs. Bidwell, in her petition, among other things, charges the defendant with accusing her of killing her three-year-old boy in December, 1902, claiming that she had given him poison. The plaintiff also claims the defendant publicly declared that a certain farmer residing near Gillivan was the father of her unborn child, and the cause of the separation was due to the use of intoxicating liquor on the part of the plaintiff.

GIVEN UP TO DIE

James T. Reilly Tells How Father John's Medicine Cured Him of Pneumonia Attack.

Mr. James T. Reilly of Killingly, Conn., writes: Carleton and Hovey Co., Lowell, Mass. "Dear Sirs—I think Father John's Medicine is a medicine that everybody should know about and keep in their house. I am never without it and never shall be. If ever a man was in a weakened condition after one and one-half years' sickness from Grip and then that dreaded pneumonia, followed by such a cough as I am unable to describe in writing, again followed by, Son,

hemorrhages. I could not sleep nights, and was unable to eat. I had given up all hope. Doctors gave me no relief and I was given up to die. After using six bottles of Father John's Medicine, I again went to work. My cough is all gone, and I have no hemorrhages. Thanks to your Father John's Medicine, I have tried hundreds of other so-called cures without any benefit whatever. Respectfully yours, (Signed), James T. Reilly." Sold in Newark by J. W. MR. MACHEN

MANAGED TO SAVE \$20,000 A YEAR ON \$3,000 SALARY.

According to Counsel for Government—Storm of Protest from Defendant's Lawyers.

Washington, Jan. 22.—An interesting incident in the trial of August W. Machen, the Groff Brothers and the Lorenzen on the indictment charging conspiracy to defraud the government, the sale of letter box fasteners came just before the usual hour for adjournment.

Throughout the day bank officials had been on the stand testifying concerning various checks and drafts which passed between D. B. Groff and Martha J. Lorenz and George E. Lorenz and Machen.

After J. W. Herring, cashier of the Union National bank of Westminster, Maryland, had told of the various transactions of Machen with his bank, Mr. Taggart, assistant district attorney, offered in evidence the transcript of Machen's entire dealings with that institution.

Taking up the document Holmes Conrad, special counsel for the government, remarked that in looking over it it appeared that by strict economy Machen on a salary of \$3,500 a year, had managed to make \$20,000 a year. This brought forth a storm of protest from the counsel for the defense.

TO THE PEOPLE OF NEWARK

From Frank D. Hall, Our Well Known Druggist.

To Whom It May Concern: Of late there has been a good deal of discussion in Newark in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Newark that we believe the most valuable preparation of cod liver oil—the best tonic, restorer, health restorer and strength creator—we have ever sold in our store is Vinol.

Vinol is not a patent medicine, it contains no injurious drugs and it actually does contain all of the medicinal curative elements taken from fresh cods' livers but without a drop of oil to upset the stomach and retard its work, and moreover, it is delicious to the taste.

Vinol acts first upon the stomach, tones up the digestive organs, creates an appetite, purifies and enriches the blood and strengthens every organ in the body to do its work as nature intended.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers and after a severe sickness.

Vinol cures hacking coughs, chronic colds, bronchitis, and all throat and lung troubles. Unequaled to create an appetite and to make those who are too thin fat, rosy and healthy.

Vinol is sold everywhere on a positive guarantee that, if it does not give satisfaction, the entire purchase money will be refunded. Frank D. Hall, Druggist.

Few Pheasants Left.

This is the year in which the open season for shooting Monahan pheasants first opens. The state at a big expense tried to stock the country with these magnificent birds, and for a year or two it seemed as if success would crown the effort. But during the last two or three years hunters have been shooting these birds regardless of all consequences. In but very few cases were the men prosecuted, but out in the country many a Sunday dinner table has been graced by the savory meat of the Monahan pheasant. When this season will have closed there will be no more pheasants because one season's hunting will exterminate every bird.

HEADLESS

And Dismembered Body of a Man Partially Identified, Found at Mansfield, Killed by Train.

Mansfield, O., Jan. 22.—The headless and partly dismembered body of a man was found in a creek at the east end of the city Thursday.

The clothing gave indication of having been burned and the flesh also was burned.

Later in the day an empty pocket-book on the body was identified by Edward L. Rist of this city as having belonged to his brother, L. W. Rist. He and his brother came here last fall from Pittsburg to work on street railway construction.

Later the man whose corpse was thus partially identified said he was going to Chicago to get a job, but nothing has been heard of him for several weeks.

The father of the Rist boys is Abraham Rist, of Shelby, and the mother, Mrs. Minnie Sweet, of Loudonville.

The coroner is unable to determine whether accident or murder caused the death.
